

# NeverLAN CTF

## Web : Follow Me

Value : 100 pts

Difficulty : Easy

Description : Your flag will be in the normal flag{flagGoesHere} syntax.

Attachment : Let's start here. <https://7aimehagbl.neverlanctf.com>.

## Solution :

When trying to access the challenge, Firefox tells us that the website is redirecting in an improper manner and that the page cannot be viewed.

Ok, let's see in Burp Suite what happens.

The screenshot displays the Burp Suite interface with the 'Repeater' tab selected. The target URL is <https://7aimehagbl.neverlanctf.com>. The 'Request' pane shows the following details:

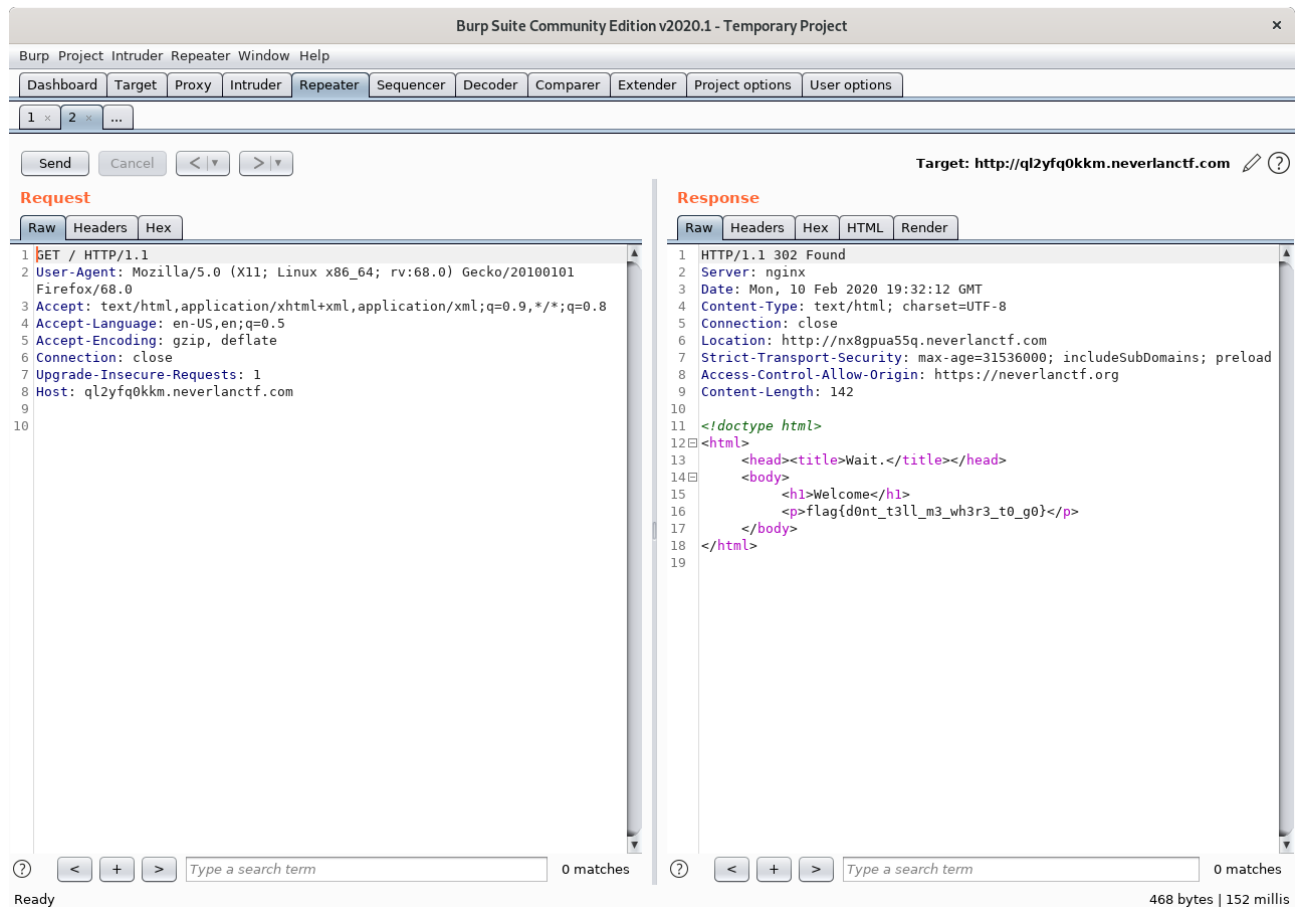

- Method: GET
- URL: /
- Host: 7aimehagbl.neverlanctf.com
- User-Agent: Mozilla/5.0 (X11; Linux x86\_64; rv:68.0) Gecko/20100101 Firefox/68.0
- Accept: text/html,application/xhtml+xml,application/xml;q=0.9,\*/\*;q=0.8
- Accept-Language: en-US,en;q=0.5
- Accept-Encoding: gzip, deflate
- Referer: https://ctf.neverlanctf.com/challenges
- Connection: close
- Upgrade-Insecure-Requests: 1

The 'Response' pane shows the following details:

- Status: HTTP/1.1 302 Found
- Server: nginx
- Date: Mon, 10 Feb 2020 19:31:17 GMT
- Content-Type: text/html; charset=UTF-8
- Connection: close
- Location: http://03pjxv2l6.neverlanctf.com
- Strict-Transport-Security: max-age=31536000; includeSubDomains; preload
- Content-Length: 45
- Body: Redirecting you to 03pjxv2l6.neverlanctf.com

The website is redirecting to an other subdomain. Following that redirection leads to an other redirection.

We follow all the redirections with Burp, and finally we can see the flag!

**flag{d0nt\_t3ll\_m3\_wh3re\_t0\_g0}**
