

Web : HDC

🏆 [30 Points] HDC [by Thiseas] [9535 solvers] 1838 🍌 137 🚫 Difficulty: ⓘ 10/07/2017 ▼

We believe a certain individual uses this website for shady business. Can you find out who that is and send him an email to check, using the web site's functionality?

Note: The flag is not an e-mail address.

Once you browse it you see this webpage

We are the first company since 1990 to provide people distribution over the Internet

Enter Username / Password

Submit

Enter your credentials and press [Submit] to access the company's Control Panel.

See the code source, you see those scripts

```
</style>
<script src="jquery-3.2.1.js"></script>
<script src="myscripts.js"></script>
</head>
```

Read teh jquery-3.2.1.js, you will see the « function doProcess() » who is hidden credentials

Username = TXlMaXR0bGU

```
hiddenField.setAttribute("name","name1"); hiddenField.setAttribute("value","TXlMaXR0bGU");
```

Password = cDB3bmll

```
hiddenField2.setAttribute("name","name2"); hiddenField2.setAttribute("value","cDB3bmll");
```

Go back to the main webpage and connect with those credentials, once logged you see this webpage

Hellenic Distribution Company Central Greece Section

Goals

- [Sociality](#)
- [Extensibility](#)
- [Public Relations](#)

Publicity and Capital Management

CAUTION: All actions are recorded!

Under Main Tasks > Mailbox of Special Customers, press F12, and read the source into the inspector. You will see an hidden directory.

```

<body>
  <font size="6">
  <b>
    
  </b>
  </font>
  <p>
  <p>
  <p>
</body>

```

Browsing it show two files « mails.gif » and « mails.txt »

Index of /main/secret_area_

<u>Name</u>	<u>Last modified</u>	<u>Size</u>	<u>Description</u>
 Parent Directory		-	
 mails.gif	2010-10-23 18:28	71	
 mails.txt	2017-07-08 17:55	705	

Apache/2.4.18 (Ubuntu) Server at docker.hackthebox.eu Port 45707

Into mails.txt you see a list of mail

All good boys are here... hehehehehehe!
