## General Skills – Hide and Seek – 100 Points :

Hide and Seek - Points: 100 - (Solves: 190)

General Skills - Solved

Solve Hints

Try to find to the flag file located somewhere in the folders located in: /problems/hide-and-seek\_35\_5cc1927383054838ab1f671286ea204f

### Hint :

Hide and Seek - Points: 100 - (Solves: 190)

General Skills - Solved

Solve Hints

Some tools get handy when files get disorganized.  
What does the command 'find' do?

Let's connect to the shell with the same credentials than the one you used for register at the CTF.

```
127 login: V0lk3n
command-line line 0: Unsupported option "rhostsrsaaauthentication"
command-line line 0: Unsupported option "rsaaauthentication"
Enter your platform password:
Welcome to Ubuntu 18.04.2 LTS (GNU/Linux 4.15.0-1043-aws x86_64)
```

Once connected, like said the hint, use find for found the directory on the server.

```
V0lk3n@peactf-2019-shell-1:~$ find /problems/hide-and-seek_35_5cc1927383054838ab1f671286ea204f/ -not -path '*/\.*'

```

Once found it, we see there is many directory on it, all we need, is to found the file with the flag. So use find once again but for list all file of all those directory.

```
V0lk3n@peactf-2019-shell-1:~$ find /problems/hide-and-seek_35_5cc1927383054838ab1f671286ea204f/ -not -path '*/\.*' -type f

V0lk3n@peactf-2019-shell-1:~$
```

We found it ! Now read the flag with cat.

```
V0lk3n@peactf-2019-shell-1:~$ cat /problems/hide-and-seek_35_5cc1927383054838ab1f671286ea204f/8681120e5e4293df2e369d9405b97d36/68b290ad78bc3ad6c20997e1784c27c0/c1c66ce52ea523ac5e94b08647364018/5c6c431fefa24b123a676de3a5b1ec4/16422710f37a2698e970836de0d9038c/c08e/flag.txt
