## Crypto : Dont Take All Knight

Value : 75 pts

Difficulty : Unknown

Description : None

Attachment : DontTakeAllKnight.png

### Solution :

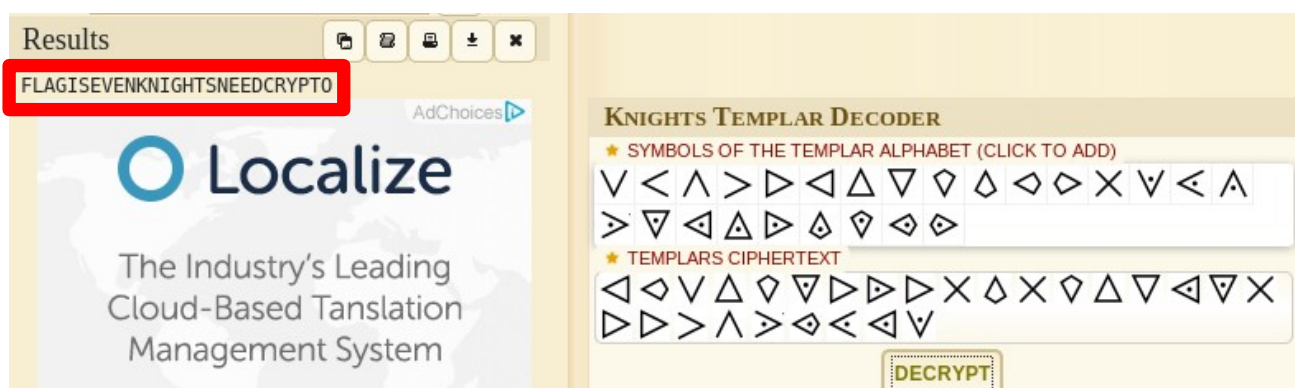

First download the attachment (DontTakeAllKnight.png). Open it and we see a cipher text.

A bit of research on google about Old cipher text using symbols, and i found a cipher named «Knights Templars Cipher».

Source : <https://www.dcode.fr/templars-cipher>

Decode the cipher and get the flag.
