/help: Display this help message.

/movie: Display must watch movies.

/random: In Case you're bored.

Sending «/help» and we get information about wich commands we can do. But unfortunatly we didn't have «/flag» option.

Looking for «/random» and we get some pictures of dog.

Looking for «/movie» and we get a list of movie. But if we read it carefully and if we think like a crypto challenge, taking the first letter of each movie give the flag.
