Crypto : Pigsfly

Value : 30 pts

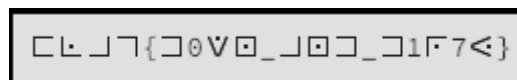

Difficulty : Easy

Description : Your flag will be in the normal `flag{flagGoesHere}` syntax.

Attachment : pigsfly.png

Solution :

First, download the attachment (pigsfly.png). Once downloaded, open the picture and we will see a cipher text.

A bit of google search, about cipher text using symbole, i found a cipher named «PigPen».

Source : <https://www.dcode.fr/pigpen-cipher>

Decode the cipher and get the flag.

e.g. type random
