Forensics : Forensics 0x0004

Value : **100 Pts**

Description : **1. this is one of those challenges where**
you can't solve it until and unless you recognize the stuff.
2. flag format ritsCTF{<---flag-here--->}.
**3. Good Luck.**

Attachment : razorgirl.mp3

Solutions :

First I looked to the descriptions and see the message "**You can't solve it until and unless you recognize the stuff**", so then I listened the song, and see that at approximately **3min 8seconds**, I directly recognized the sound and know it was an **SSTV signal**.

Using the application for android device bellow I decoded the sound with my phone and get this picture back.
