Forensics : Open Backpack

Value : 150 pts

Difficulty : Unknown

Description : There's more to this picture
Your flag will be in the normal flag{flagGoesHere} syntax.

Attachment : openbackpack.jpg

Solution :

First download the attachment file «openbackpack.jpg».

Hey your backpack is unziped...

As said the description «There's more to this picture». And the picture said «Hey your backpack is unziped». So i started by runing «strings» on the target and realize there is an embed picture inside this one called «flag.png».

```
flag.pngUT
=^ux
root@kali:~/Téléchargements#
```

Using «binwalk» i extracted the embed data and get the flag.png file. Open it and we see the flag.

flag{AlWaYs_cH3cK_y0ur_sTuFF}

Flag : flag{AlWaYs_cH3cK_y0ur_sTuFF}
