UTCTF 2020

Forensics : Spectre
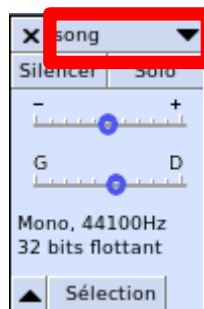

Value :   50 Pts

Description :   I found this audio file, but i don't think it's any song i've ever heard… Maybe there's something else inside ?

Attachment :   song.wav

Solutions :

Downloading and listening the attachment file «song.wav» and we can hear some garbage. As the name of the challenge is «Spectre» i direclty thinking of «Audio Spectrum».

Open the «wav» file with audacity, inside the sound parameter, choose «Spectrogramme» and you will see the flag.

Flag : utflag{sp3tr0gr4m0ph0n3}
