Reverse Engineering : Rev 0x0001

Value :   **50 Pts**

Description : **The file required to solve the challenge is attached in the directory with the name: chall1.elf**

Message:
1. find the correct password for the crackme to display the "Correct Password" message.
2. your goal is not to make the app display "Correct Password" but to find the correct password which does that for you.
3. brute-forcing won't help but you can do whatever you want.
4. don't expose this challenge on a real work environment.
5. flag format riftCTF{<---flag-here--->}.
Good Luck!

Attachment : chall1.elf

Solutions :

Running strings combined to grep looking for content "riftCTF" in the file "chall1.elf" and we got the flag.

Flag : riftCTF{tr4c1ng-mAkes-17-SUPeR-345Y}
